## EXPERIENCE

- **Freelancer** Nov 2022 - Present  
Remote  
Full Stack Developer
  - Engineered and deployed 10+ full-stack applications, reducing overall defect rates by 35% through industry-standard coding practices and scalable architecture.
  - Built and optimized a reusable component library for React, enabling UI consistency across 5+ production apps, boosting development speed by 40% and reducing UI bugs by 25%.
  - Collaborated with a cross-functional team of 5–7 developers to build enterprise-grade dashboards using React.js, Chart.js, D3.js, enabling companies to visualize 50K+ data points in real time.
  - Developed 10+ Chart.js custom plugins, enhancing visualization capabilities and increasing client satisfaction by 25%.
  - Integrated REST APIs and improved backend logic in Express.js/MongoDB systems, reducing API response times by 30–45% across multiple projects.

## SKILLS

HTML, CSS, JavaScript, React.js, Next.js, React-Native, Expo, D3.js, Chart.js Express.js, Rest API, MongoDB, Linux, Git & Github

## EDUCATION

- **Maharishi Agrasen Himalayan Garhwal University** JUL 2021 - SEP 2025  
Pauri Garhwal, UK
  - Degree: Bachelor of Computer Application
  - Marks: 63.47%
- **Govt. Sr. Sec. School, Mandola** APR 2015 - MAY 2016  
Rewari, HR
  - Degree: Senior Secondary (12th Non-Med.)
  - Marks: 61%

## PROJECTS

- **Insecview (Instagram Profile Viewer)**
  - **Tech Stack:** Next.js, Tailwind CSS, Instagram API and Vercel
  - **Description:** Built a privacy-focused web app enabling users to anonymously view public Instagram profiles and posts, handling 10,000+ profile lookups per month. Optimized performance with ISR and API caching, reducing load times by 40% and ensuring 100% mobile responsiveness across devices. Deployed on Vercel with seamless CI/CD for rapid updates.
- **Vibe (Music Streaming Mobile App)**
  - **Tech Stack:** Expo, React Native, Serverless API, MongoDB, Vercel.
  - **Description:** Designed and developed a cross-platform music streaming app supporting real-time sync and background playback for 1,000+ active users. Implemented Google OAuth authentication reducing login time by 60%, along with music search, custom playlists, and a liked-songs system. Engineered a scalable serverless backend (MongoDB + Vercel) capable of handling 50,000+ monthly API requests with minimal latency.

## ACHIEVEMENTS

- Cleared Masai School Full-Stack Developer entrance exam.
- Tackled 50+ Data Structures and Algorithms challenges on the Leet-Code, emphasizing my proficient grasp of these fundamental concepts.
